Claims 1,8-10,21-24; 11,12,25,26; 13-18,27,28 are finally rejected under 35 U.S.C. 102(b), 35 U.S.C.103(a) as set forth in the Office Action dated 02/28/03.

Applicant's arguments filed 07/21/03 have been fully considered but they are not persuasive.

Claims 1,8-18,21-28 are directed to an article claims per se which having the structure of a film attached to an opening. The process limitation to an article claims does not bear any patentable weight. In the remark applicant argued that none of the reference show the novel bonding process, however, the claimed invention is not a process claim, how the film bonded to an opening does not provide any patentable structure to the article which is basically a film bonded to an opening. Moreover, Lake et al discloses the housing being molded around the film. Such process inherently would be considered as bonding by heat.

Applicant's arguments with respect to claims/// have been considered but are moot in view of the new ground(s) of rejection.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
